On-site RYA Training

The more confident our members feel when handling our boats or jetskis, the more likely they are to book sessions and enjoy time out on the water.

We frequently get enquiries for new member sign-ups who, having previously bought a boat and tried it with minimal training, then encounter a troubling experience on the water. This can diminish their confidence, steer them toward other activities, and eventually lead them to sell the boat, therefore our aim is to get you back on the water with confidence.

We have been an approved RYA Training Centre for the last 16 years alongside running the club, therefore have a great team of experienced Instructors on hand. Their aim is to make being out on the water second nature for our members. Whilst all new members will undertake RYA Courses when they join we believe the real value is in offering continued training throughout their membership so berthing in other marinas or exploring new stretches of coastline becomes second nature.

The training received from the team at New Wave Club has boosted my confidence and I am now able to enjoy the full fleet and take friends out to enjoy a relaxing afternoon on the water.

FREQUENTLY ASKED QUESTIONS

What's the availability like for bookings?

We often get asked this by new enquiries. Thanks to our smart booking system and careful member-to-fleet ratio, it's rare not to find a boat or jetski when you need one. Whether it's a last-minute outing or a planned trip, we've got you covered.

We are always happy to put you in touch with our current members who will vouch for our vessel availability.

How does subscription boating and jetskiing work?

All Jet ski and Boat Memberships are based on an annual 12 month Contract. Members can sign up at any point of the Year. Our RYA Jet ski and Boat training runs all year round to assist in this process. Once Trained members have exclusive access to our fleet of Jetskis and Boats to use at their leisure.

How does refueling work?

Jetski members are responsible for refuelling the Jetski at the end of their session. As the Jetskis are always left fully fuelled by the previous user, members can simply arrive and head straight out and always keep tabs on how much fuel they are using.

Boat members can either refuel at the end of their session or will log the fuel used at the end of their session and pay a small service charge for our team to refuel. All the boats have accurate fuel burn rate computers onboard and due to the large tanks do not always need refuelling between each session to help maximise members time out on the water.

Is there any safety equipment on the vessels?

All our club boats are either MCA Coded or local council coded and therefore carry a full range of safety equipment on board including lifejackets. The only additional safety equipment you may require is life jackets for children.

The Jetskis also carry safety equipment onboard, including Anchor, tow rope, Flares, knife and first aid kit.

How many people can I take out on the vessels with me?

Please take a look at our fleet information as this varies per boat. The Jetskis can carry a maximum of 2 adults and 1 child.

Can I use the vessels for fishing?

Yes this is not a problem and we even have some custom fishing boxes with rod holders that attach to the Jetskis. We just ask members to not gut/clean fish on the vessels and to give them a good clean afterwards.

Are the vessels available all year round?

Yes, apart from when they are out the water for maintenance the vessels are available all year round. We find with the appropriate gear some of the best time on the water can be in the off peak months.

What if I break down?

We pride ourselves in professionally maintaining all the vessels, but should you run into any problems this isn't an issue as all boats and jetskis are covered by Sea Start break down service, with the added comfort of our team shoreside to potentially help if required.

How do I book my sessions?

Our bespoke booking app has many unique features. We have worked hard to make sure it gives members complete flexibility around the booking procedure incorporating both future and last minute booking scenarios, as well as the ability to cancel a session up to 24 hours in advance or buy extra sessions if required.

Do I require training to be a member?

All members must hold a valid RYA Powerboat 2 license, or RYA Personal Water Craft license respectively. The joining fee includes official training from our team of RYA certified instructors to ensure all of our members are comfortable operating our fleet. We also take you through a comprehensive induction of each and every boat you might take out with your membership to ensure you are equipped to operate the vessel alone!
